GOVERNMENT ACCOUNTABILITY PROJECT PARALEGAL ANNOUNCEMENT

BACKGROUND

The Government Accountability Project is the world's leading international whistleblower protection and advocacy organization. The organization was created in 1977 at the Institute for Policy Studies (IPS) in response to several whistleblowers, such as Daniel Ellsberg, who came to IPS about White House, FBI and Pentagon scandals. Since that time, Government Accountability Project, a 501(c)(3) non-profit, has served as a lifeline to employees of conscience and has helped them release critical information that serves the public interest and the common good. A non-partisan public-interest organization, we litigate whistleblower cases, help expose wrongdoing to the public, and actively promote government and corporate accountability. Since its founding, Government Accountability Project has helped over 8,000 whistleblowers, defending them in the court of law and the court of public opinion, while crafting and refining whistleblower protection laws through legislative channels at home and abroad.

Since its inception, Government Accountability Project's advocacy efforts have shaped both public interest and legislative agendas, and created opportunities for lawmakers to strengthen and clarify the free-speech rights of courageous employees across a broad spectrum of industries.
